### What Is Form 1095-C?

Form 1095-C is an IRS tax form that reports information about the health insurance coverage offered by your employer. It helps both you and the IRS determine:

- Whether you were offered employer-sponsored health coverage
- Whether you may be eligible for premium tax credits
- Whether your employer met ACA coverage requirements

You are **not required** to file Form 1095-C with your tax return. Keep it with your tax records. You may need it if you enrolled in Marketplace coverage, but you generally do **not** attach it to your tax return.
